WORK EXPERIENCE

Full Stack Developer

Habib University | December 2023 - Current

I am the sole developer on an online programming platform set to replace the current solution used by the university in all their courses as a means to conduct labs, give assignments and take examinations.

Information Security Intern

Habib Bank Limited | June 2023 - July 2023

I was part of the team that was launching their new Identity & Access Management system replacing their current outdated one. My tasks included User Acceptance Testing and preparing the user manual guide.

Teaching Assistant for Various Courses

Habib university | August 2022 - December 2023

I was the TA for 4 of the university courses during the period of 3 semesters. My tasks included grading assignments, helping instructors during lab sessions, providing one-on-one help to students etc.
